## To the Seniors:

Throughout the years, we have been adding pieces to our puzzle. Each teacher, event, friend, and memory creates a piece to our puzzle we call life. As the years have passed, we all have become closer to completing it. From our first day as a freshman in the halls, to our graduation in the Centrum, not only has our puzzle been completed, but we have grown as people. With every friend, prom, project, game, club, or class, a piece was formed and a lasting memory was created.

So remember Seniors: high school may be over and friends may go their separate ways. But, you will always have that unblemished picture your puzzle has become to remind you of the bonds and memories made here at the Regional.

# Back In The Day

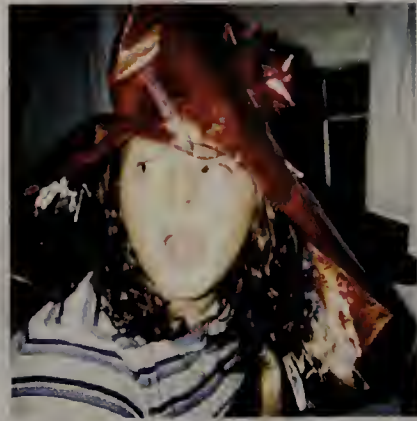

# COMPLETING THE PUZZLE

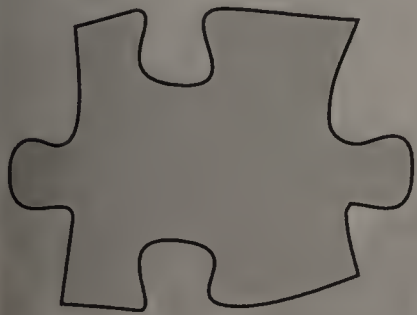

# The last Pieces

*Placing our last pieces in high school is something we all like to remember. Completing our final classes, picking our college of choice, and finally graduating and saying goodbye to friends are the very last pieces we place. But high school should not be remembered solely on graduating, but the steps it took to get there.*

*Our first day of Freshmen year when we walked through the corridors for the first time, passing people we've never met before that through the years could become the best friends we've ever had. Sophomore year when we no longer had the safety of our "Family Classes" and we were urged to venture out and meet more people. Junior year when most of us went to our first prom, riding in limos with our dates and friends and making memories that will last a lifetime. Senior year when we are at the top of the school, thinking about our future and suffering from major senioritis.*

*Now we devote this "Last Pieces" section to our dedicated seniors. Letting each person say a special thanks to family and friends and to remember the good times they had in high school in their own words.*

# COMPLETING THE PUZZLE

# The Little Pieces

*We spend three out of our four years in high school as underclassmen. We enter as mere freshmen from small schools, knowing only a portion of the huge high school population. As we get older, we form close relationships with all different kinds of people, create memories, and as the years go on, we meet more and more people to fill our puzzle. It is during this time that we find out who we really are, and we prepare for the one year we spend at the top of the school as seniors.*

*The three years we spend as underclassmen are a very important time. We learn lifetime lessons and make close friends. It is the time when worrying about college and careers seems decades away. However, it goes by faster than you think. Pretty soon you will be seniors, so don't end up saying, "I wish I did... when I was in high school".*

# COMPLETING THE PUZZLE

# The Border Pieces

*High school is made up of a specific structure with teachers as the support beams. Our puzzle's structure wouldn't be strong without our border pieces. This section is dedicated to the teachers that helped us complete our puzzle.*

*We loved them for their great lectures and advice. We hated them for the homework and hard projects. But in the end the only words that we can think of to say for our final farewell is, "thanks!" Thank you for keeping us on track and giving us the desire to keep learning. You pushed us to be our best, and helped pick us up when we were at our worst.*

*There was a special faculty member, whether it was an administrator, a counselor, a coach, a teacher, or even just a friend, who helped get us to the stage to accept our diplomas. The lessons learned and the knowledge gained makes all the hard work worth it.*

# Administration

Dear Members of the Class of 2005:

Your four years at Wachusett Regional High School have come to an end and it is my hope that each of you will leave this high school adequately prepared for your future and full of positive memories. Wachusett is a very special place to me and I hope it is to you as well. Cherish the associations and friends that you have made here even as you move on to bigger and better things.

You have certainly attended Wachusett during an important time in our school's history. We celebrated our school's fiftieth anniversary this fall and the Class of 2005 will be the first class in our pursuit of fifty more. That future seems a bit more certain now than it was when you were freshmen, a point at which our building plans were still unclear. But as your walks down the hill each day attest, our construction project is in full swing and the students of the future will enjoy a vastly improved Wachusett. You have made a great contribution to these future students through your incredible cooperation with the hardships of construction. Your good behavior has allowed me to focus my energy on the management of this enormous project.

Let me close by congratulating the Class of 2005 for its many accomplishments. You have excelled in the classroom, on the playing fields, and in the arts. You have also demonstrated a consistent commitment to service, both through the direct activities of your class and your participation in service activities sponsored by the school as a whole. You have been a good class and should feel proud of your individual and collective accomplishments. My best wishes to you as you leave Wachusett. It is my hope that our school has served you well.

Sincerely,

Thomas G. Pandiscio

# English, Art, & Directed Study

The English department not only provides students with essential writing skills, but it also introduces a world of literature to explore. Everyone will look back on the Classics and the late night papers for years to come. Students will also be able to use the analyzing tools they learned from the great English teachers here.

A different kind of education is offered to Art students, who use their creativity to produce visual masterpieces. Walking down the hallways at school is always a great way to catch their latest projects.

Finally, Directed Study prepares students for the world outside of Wachusett. As sophomores, we are taught to prepare for the MCAS, SATs, and the college admissions process.

# Science, Business, & Technology

Together, the Science teachers have given students hands-on experiences for a better understanding of the world in which they live. Students will never forget the endless number of labs conducted in Physics, Biology, and Chemistry.

Learning about important health issues, cooking, and even making clothes are just a few of the opportunities offered in Family and Consumer Sciences.

The tools the life skills students gain from the Business Department will stay with them long after they graduate. The business faculty taught students to manage their affairs, preparing them for successful careers after graduation.

The Technology Department offers students many opportunities to enrich their traditional education. Courses, focusing on computers and cars, gave them knowledge that will continue to be useful in a world of growing technology.

Mr. Guerin confuses yet another student with his endless knowledge of chemistry.

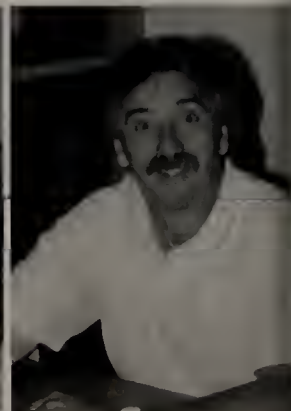

Mr. Klayman shows off his fancy, new car.

# Math, Music, & Health

The Mathematics program uses real life situations to show students that this type of education matters. Contrary to popular belief, the concepts that students are taught will be used later in real life situations.

The Music Department is a great source of pride for the high school. The four concerts are always a great success, and the department deserves credit for being a Grammy Signature School over the past few years. The trip to Toronto this year was incredible, and it will be a fond memory for all who went.

Students would be lost without the Health Office. The nurse is always ready to lend a hand to make students feel better. Bandaging the cuts and scrapes from gym class and accepting the "I have a headache and need to go home" line are just some of the things the nurse has done for the students.

What's wrong Mr. King? Is this problem too hard?

# Guidance & Foreign Language

From the time students stepped into Wachusett as freshman, the Guidance Department has always been a supportive base. Arranging schedules and helping students with college planning are just a few of the things they have done. Their leadership has played a key role in the students' high school years, as well as their futures.

Learning about the languages and cultures of different countries around the world is another enriching experience offered at Wachusett. The traditional aspects of foreign languages are taught, but students are also able to enjoy music, movies, and food from the different countries.

# Social Studies and Physical Education

A lot of great opportunities can be found in the Social Studies Department, where students learned more from studying history than they ever thought they would. Through electives like Government, Psychology, and International Relations, the talented teachers have prepared students for further education, future careers, and for interaction with the world around them.

Physical Education class is that one time of day for students to vent all of their pent up energy. The variety of classes kept the school day enjoyable. From competing in team sports to conquering fears in Project Adventure, students will always remember the Physical Education Department.

# Special Education

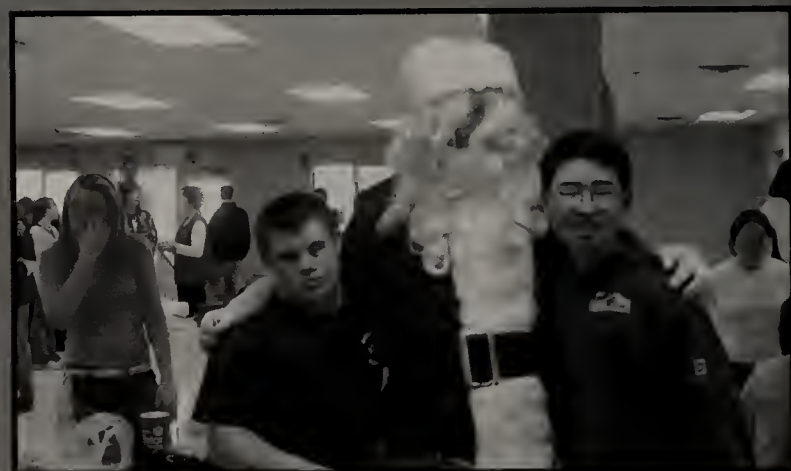

The Special Education Department is based on the values of understanding and acceptance. Students are constantly learning to work well with others while becoming strong individuals.

Students in this department participate in fun activities with Wachusett students and the local community. One of the many activities they are involved in is Best Buddies, a group that aids them in forming relationships outside of the classroom.

They also participate in the local Life Skills Run/Walk each spring with the Holden Police Department. This run/walk is always a huge success, and all of the students have a wonderful time.

# Media Center, Monitors, and Alternative Education

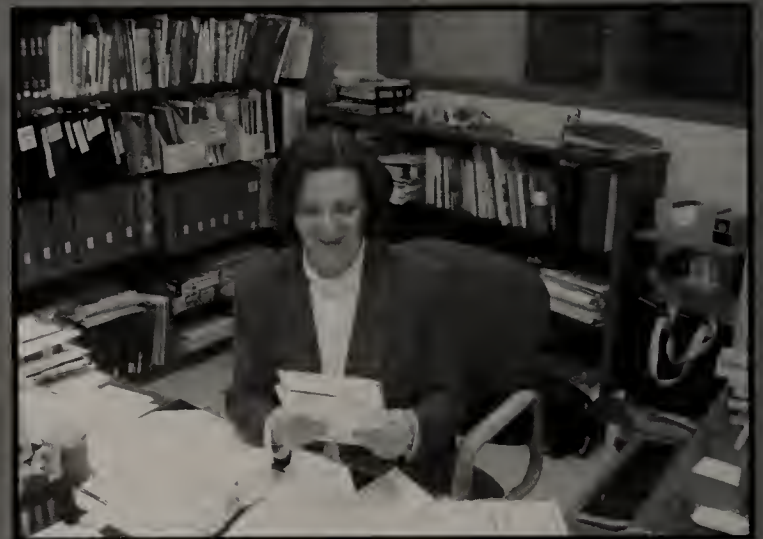

A nice, peaceful place to do research or check out a good book is the Media Center. It provides a quiet atmosphere for people who need to focus on their work, and it is also a new forum for teachers to bring their students.

Students enjoy their free time in Study Hall, but it could not be possible without the Study Monitors. They put up with the students and their loud antics, but still manage to keep them under control.

Through Alternative Education, students learn a lot about themselves. This program helps to put this self-knowledge to use in ways that benefit the students and prepare them for life outside Wachusett.

Brendan, Jackie and Anitra work diligently as Mr. Lucive looks on.

# Cafeteria and Custodial Staff

Although we may not always see them, the Cafeteria and Custodial Staff are vital parts to Wachusett's community. The Custodians do their best to keep our school clean, and they do a terrific job! The Cafeteria workers are always ready to serve our lunches with a smile on their faces. We greatly appreciate what they do for us every day.

# Day in the Life of the Top Ten Teachers

Mr. Hilton's motivation to become a teacher was so he could "make a positive impact on the world."

He explains, "I gain much of my inspiration for teaching from my wife, who is a phenomenal third grade teacher at Dawson Elementary. Her energy and zest for the teaching profession helps inspire me to improve myself in all endeavors in my life."

Mr. Hilton's NOTORIOUSLY famous quote at the Regional is "Never end your search for knowledge, truth, or light."

Ms. Fink was motivated to become a teacher by her own mother, who was also a teacher.

She says, "My favorite thing about teaching is sharing what I know with my students, and having them come and share what they have learned with me."

"You always have choices, do the RESPONSIBLE thing," is Ms. Fink's advice to students.

Mr. King explains that his motivation to become a teacher stemmed from his accounting professor. "He said, 'what better way to use knowledge than to give it right back to those wanting to learn?'"

His favorite quote is "I can only help those who help themselves." He believes that you can not will things to improve without trying.

He encourages that hard work ALWAYS pays off, and that you should try your best because "things will become easier over time."

Mrs. Nicastro's motivation to become a teacher was her grandmother, who knew she would be one. "It took longer than she expected for me to arrive at my destiny, but I guess she was right."

A funny story Mrs. Nicastro likes to tell is about the time she had to institute a new class rule: "No Head Licking."

Her favorite thing about teaching is that she gets to learn new things every day. "Teaching fully engages your mind, heart, and body."

Mr. Guerin's attitude towards teaching is to "make a complete 'fool' of myself, and get a message across at the same time." He also inspires to become the most popular teacher in the future; "Watch out Worthy!!" says Guerin.

He explains to students, "If the work seems hard now, don't worry. Suffering now will make any future obstructions seem like nothing at all."

Mr. Jourdain became a teacher because "I wanted to do meaningful work. I didn't want to be in something where the most that I could hope for was that I did my job really well."

His favorite quote is "This country will not be a permanently good place for any of us to live in unless we make it a reasonably good place for all of us to live in" by Theodore Roosevelt.

One of his fondest memories was when Senior Drew King dressed up as him on "impersonate a teacher day." After all, who WOULDN'T want to be Mr. Jourdain?!

Ms. Worthy's motivation to become a teacher was being "a product of the 1960s. Growing up during that era, I heard the words of some of the world's greatest social activists. Those words still guide me today."

Her inspiration comes from her students, "past, present, and future."

Her favorite quote is said by John Wayne: "Courage is being scared and saddling up anyway."

Mr. Magnani says his motivation to become a teacher is that it is "a job that is full-time, steady and secure, and that allows time for me to coach as well."

In jest, he explains that his favorite thing about teaching is "summer vaca... I mean 'the children.'"

His favorite quote is "It's a dog-eat-dog world out there, so be sure to wear your milkbone underwear."

Mr. Farley became motivated to become a teacher after his wife became one. "I was unemployed, recently married, with a master's degree in history, and I needed a job."

His favorite thing about teaching is "watching the students gain knowledge about their country, and the world information that perhaps they would never have known."

The advice "Captain Jack" gives to procrastinating students is "Capt'n, if you don't go out with the outgoing tide, the tide will go out without 'ya!'"

Mr. Farrell's motivation to become a teacher came from the encouragement of his family. He notes that also, "my ability to be patient with children and summer vacations didn't hurt either."

His favorite thing about teaching is "the rare thanks I receive from a student."

Mr. Farrell encourages students to persevere: "One day, grammar just clicked for me. Now I'm brilliant. It will all become clear one day."

# Arts Encore

## May 31, 2005

Arts Encore is an awards night at the end of each year recognizing the students of Wachusett's Art, Music, and Drama Departments. The awards are based on outstanding performance, achievement, improvement. Scholarships are also given out to deserving seniors. All in all, it was a night to remember the importance of the arts in public education and the students who make Wachusett's Art, Music, and Drama departments top notch.

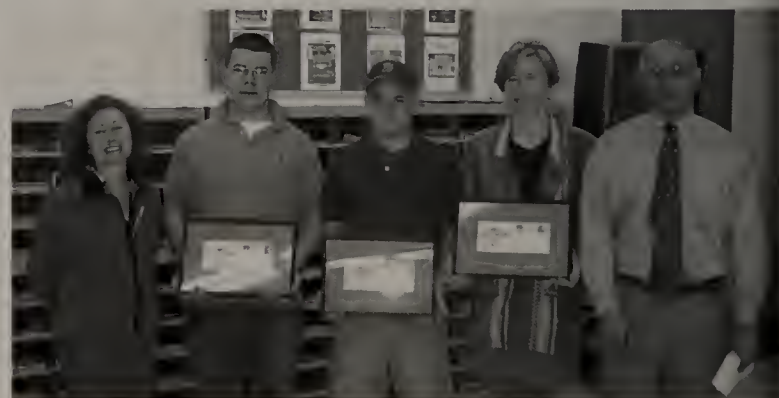

Above: These members of Wind Ensemble and Honors Jazz were recognized for their achievement in many different aspects of music.

Right Above: Chad Govey accepts an award.

Right Above: Kacie McLean show off one of the awards she received for her efforts in art.

# Academic Awards

May 24, 2005

Each year, students' academic achievements are recognized at Academic Awards Night. These students are awarded certificates for participating in extracurricular academic groups, for their accomplishments in the Partnership program and are also recognized for acceptance into different achievement groups. Book awards are also given out to outstanding students. It is a night of praise for some well-deserving students.

Kelly Sullivan is presented an award from Mrs. Shelia Frias for excellence in fashion merchandising.

Science seminar students are recognized for their research and project. These students worked every Tuesday night with professors and visited labs on their own free time.

David Willens is presented an award for excellence in engineering, drafting and design by Mrs. Shelia Frias.

Greg Weaver receives an award from Ms. DiLeo for his excellence in computer programming.

Corey McIntire gets an award for excellence in computer programming.

Curran Kelleher and Nick Staudhafer celebrate after getting their awards for computer programming.

A lot of hard work and dedication goes into creating a project for the Science Fair. The year-long projects for Honors science classes take up a great deal of time, and intensive Science Seminars are held every Tuesday night at Wachusett. Some teachers may assist in helping students create their projects, but the amount of work the students do is incredible.

Guided by experts, but left with their own creativity, students at Wachusett had a spectacular display for the 50th Annual Science Fair. Congratulations to all the participants!

# Madrigal Dinner

Each year, St. Mary's Hall is transformed into a medieval castle for the Madrigal Dinner. Members of Singers and Chamber Choir dress as court members and their ladies-in-waiting for the musical dinner show.

Traditional songs from the period are sung, while instrumental groups from Wind Ensemble serenade the diners.

The entire dinner is centered around the court who perform a skit, written by the choir members, for the King and Queen.

It is a night of music, good food, and fun for both the participants and guests.

Princesses: Lillian Hall, Kaitlyn and Kaitlyn. The princesses are ready for the dinner.

Gobby Lerner, as Prince John, presents to also Robin Hood. Let him love the woman!

Ben Radzicki and Nikki Collins snuggle up at the High Table.

Roxanne Joseph and Dan Collins take a break from singing to pose for a picture. Say "Wasail"!

Miss Hager plays Robin Hood in this year's theme... talk about a man to fight!

# National Honor Society Induction Ceremony

January 10, 2004

**SPEAKER:** Mr. Jourdain

Each year Wachusett's well rounded students are inducted into the National Honor Society. Patrice LaHair, Whitney Swanberg, Caitlin Lahey, and Andrew King, the officers of NHS, spoke of the four components that qualify these students for National Honor Society: scholarship, service, leadership, and character.

This year Mr. Jordain was chosen as a guest speaker at the induction ceremony.

Nicholas A. Guerin, Advisor  
Sarah P. King, Advisor  
Thomas G. Pandiscio, Principal, Advisor

Patrice K. Lahair, President  
Caitlin F. Lahey, Vice President  
Andrew J. King, Secretary  
Whitney F. Swanberg, Treasurer

Bethany L. Graber, Blood Drive  
Jacqueline L. Leger, Blood Drive  
Cassie O. Henderson, Blood Drive

Sarah R. Cournoyer, Community Service  
Shelby L. Halsdorff, Community Service  
Julie A. Mardin, Community Service  
Heather L. Schell, Community Service

Kristen A. O'Malley, Tutoring  
Coordinator  
Ashley B. Wilson, Tutoring Coordinator

# National Honor Society Annual Blood Drive

The blood drive is the National Honor Societies' major service project each year. This year over 100 people participated by donating blood and helping throughout the day. Due to construction, instead of being held in the gymnasium, the blood drive took place in the media center...how messy!

Jon Long, Beth Graber, & Jackie Leger take care of the NHS business at the blood drive.

Mike Sikonski, John Schnare & Dan Hurley give the thumbs up and are ready to go!

Chris McLaughlin started to cry after his blood was taken!

Claire Oscadal smiles big after she had blood taken from both arms!

# Foreign Language Honors Induction

There are many ways that students from Wachusett are recognized for their achievements, and one of these ways is through the Foreign Language Honor Societies.

As the students in the various language classes do their best and excel, their accomplishments are acknowledged when they are inducted into the respective societies.

The National Junior Classical League, or Latin Honor Society, asks its members to spread the Roman language which can be seen as alive.

The members of La Societe Honoraire de Francais express a great deal of pride and success in their French studies.

Members of Delta Epsilon Phi, or the German Honor Society, try their best and excel in German class.

Last but not least, those in La Socieadad Honoraria Hispanica strive to better their speaking and writing abilities and succeed in the process.

Andrea Dwyer and Ashley Wilson use their speaking skills in inducting new students to the La Société Honoraire de Français.

Monsieur Monahan supports his students on induction night.

Members of the National Junior Classical League wait to pledge their allegiance to continuing their Latin studies.

We catch these two taking a break from making speeches.

Scott Prosser, Justine Almstrom and Courtney Macaruso are all smiles at the Foreign Language Inductions.

Delta Epsilon Phi members listen to a speaker as they wait to be inducted into the German Honor Society.

Danielle Babineau and Stephanie Morin promise to continue their Spanish studies as they're inducted into La Sociedad Honoraria Hispanica.

Future members of the Spanish Honor Society members wait to be inducted into the society.

# DECA

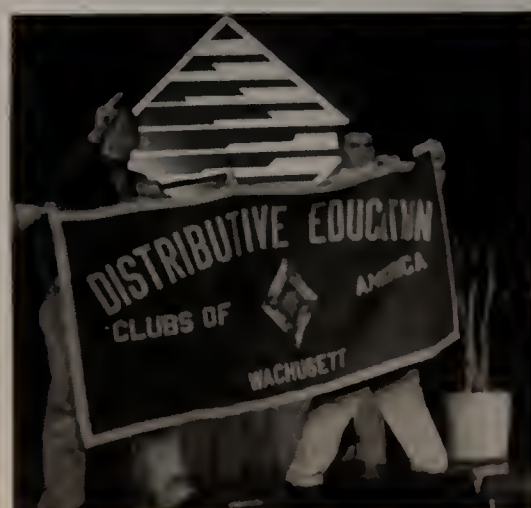

The Distributive Education Clubs of America, known more commonly as DECA, is known throughout Wachusett for its sales and promotions of Wachuwear clothing. Under the leadership of President Kayla Ursin, Vice President Rachel Rosenfeld, Secretary Matt Pagourgis and Treasurer Pat Kelley, the group successfully provided a variety of clothing options for the Wachusett Community.

The club's members also proved their intelligence in the business area with their successes at competitions. This year at the State Conference, awards were received by a number of participants, with Rachel Rosenfeld, Jessica Hutchinson, Bobby Lambert, Billy Waters moving on to the national competition in California.

# Wachusett Partnership Program

With the motto "Preparing independent, responsible, life-long learners," the Wachusett Partnership Program trains students for real world careers as well as college studies. Offered as a two- year program for juniors and seniors, it focuses on different majors, and it gives students the opportunity to earn college credits at several institutions of higher education in the Worcester area. Some of the programs of study include Graphic Communications, Automotive Technology, Fashion and Criminal Justice, just to name a few. The innovative Wachusett Partnership Program provides skills for the future's high-paying jobs.

# Retirees

Each year, Wachusett loses at least one of its excellent teachers. This year, the school loses six. Each one has contributed their time and effort to teaching our student population and they will be missed.

# COMPLETING THE *PUZZLE*

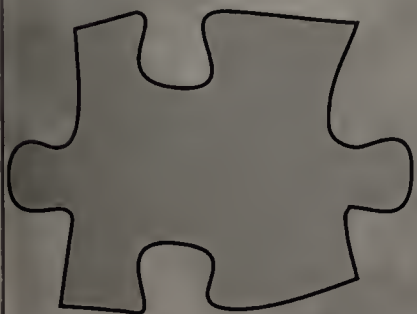

# The Colorful Pieces

*The four years we spend in high school would go by so much slower without the clubs and organizations that keep us busy during out of school hours. There is a club out there for everyone. These clubs create colorful pieces in our lives that show our personalities and achievements.*

*With all of the activities offered at school from Student Council to Anime club, from the ECHO to the Universe Club, everyone has a place and can be a part of something. We give out a big thanks to the teachers who devote their free time to help with organizing and supervising these activities. Without them, these fun after school organizations wouldn't lift off the ground.*

# COMPLETING THE *Puzzle*

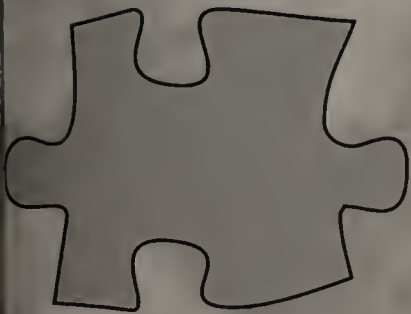

# The Center Pieces

*High School wouldn't be the same without the hustle and bustle of all the activities going on outside of the school's control. All the things beyond sports and clubs where people just hang out with their friends and create memories that make high school, well, high school. We all learned, studied, and laughed together. Many of us looked forward to place these pieces of the student life puzzle since they are the most fun! These are the times when the stress of school is put behind us and we just hang out and have fun. We all looked forward to Jr. Prom, laughed about the funny nicknames, and complained about the monster hill of the parking lot.*

*Life as a student at Wachusett is always interesting and full of fun. With these next pages, we show you what high school entails and what it really is about. From the couples at school, to homecoming and junior prom, to the jungle of construction, Wachusett has a puzzle of its own.*

# Homecoming

*Get ready to start the 50th year fun!*

*A Never-Ending Festival of Events*

The week of Homecoming is always a time for celebration in the Wachusett community. In spite of this year's construction and the dance being held on a separate weekend, everyone showed school spirit and took advantage of the extra week of festivities. Spirit week pitted each class against each other in a contest to show school pride, which sometimes resulted in some crazy get-ups.

There were the traditional pajama and green-and-white days, as well as the new and improved color war day. Also added to the spirit week agenda was a day to show support to our favored Boston sports teams. Each class was represented by a large thermometer, portraying their level of spirit. Juniors won overall, but all the students and faculty showed a lot of enthusiasm.

# Couples

Love is in the air.... EVERYWHERE! look around...

Spending more than 6 hours a day, 5 days a week in one place provides the perfect environment for getting to know someone. Here at Wachusett that is just the case. Whether it started off as a crush for the cute upperclassman in your math class or being stuck together for one too many long block studies, love is definitely all around the Reg. Here are some of the couples you'll see around WRHS.

# Anne of Green Gables

This classic story of everyone's favorite redhead is the play that Wachusett's Drama Department put on in November 2004. The title character Anne, played by Patrice LaHair, is a young orphan girl who experiences funny, and some tearful, moments as a couple adopts her and moves her into a new community. From all those stellar actors, inspiring directors, and efficient members of the backstage crew, this was an entertaining show for the entire community.

# 42nd Street

## A Wachusett Spring Musical

Above: The cast and crew of 42nd Street.

Below (L-R): Nicole Blanchette discusses her fate as a new star with Patrice LaHair and Matt Hager.

The theatrical talents of Wachusett Regional High School presented another hit show with the performance of the musical 42nd Street. In the play, Peggy Sawyer realizes her dreams of stardom as she becomes the main attraction of a play that was supposed to feature Dorothy Brock. With Dorothy suffering from a broken ankle, Peggy steals the show and proves that dreams can come true with hard work and an enthusiastic attitude. The credit for Wachusett's performance belongs not only to the dedicated stars, but also to the adults who coordinated the whole gig. Director Doug Ingalls, producer Melanie Donegan, musical director Thomas Nerbonne, and choreographer Amy Gamache all worked together to put on this live adaptation of Bradford Ropes' novel. Featuring a stellar cast that included Patrice LaHair, Alyson Sutherland, Nicole Blanchette, Kaila St. George, Meghan LaPorte, Brian Scannell, Drew King, Bobby Lemire, Greg Wilfrid, and Hailer Con, as well as many more talented young actors, musicians, and dancers.

All the members of the backstage crew helped make the performance possible, as well as the help of assistants Mimi Paquette and Julianna Slaten.

# The Hill of Doom

Along with the excitement of a brand new high school came the chaos that all the construction created, and nothing was dreaded more by the senior class than the "Hill of Doom." With the old parking unavailable indefinitely, we were forced to park our precious cars on the giant hill, and make the long trek down to the school each morning. After six hours in school, no one looked forward to going up that hill because for some reason the afternoon hike seems to be

"Just line it up and go for it!"

# The Rest of the Mess

## Chaos Around the School

### Extreme Makeover: School Edition

Over the past year we watched helplessly as our beloved school was torn apart and revamped. Athletes travel far and wide for practice fields. Gym students shared crowded space in the hallways and the auditorium longing for the days of the rubber gym. We experienced changes to the fullest throughout our senior year but we look forward to future classes having a better school.

# A Day in the Life

When the alarm clock goes off, their day starts.

Every high school student agrees that classes take up the better part of their day. Outside, activities allow students to let loose and pursue their own interests. Not only do we love to listen to music, but some kids dedicate themselves to bands. Sports are common as well, and even those students who don't play for a team work out at the gym. Even those not-so-glamorous jobs are popular as afterschool hobbies, raking in the dough for weekend activities like dances and movies. And of course, volunteering takes up a major portion of student life, as Mountaineers are always ready to help others.

# Winter Carnival

This celebration of winter time bliss breaks up the drab season with a bit of glitz and glamour. The Winter Carnival was held at the Worcester Centrum on February 12, 2005. # Going Abroad

In April 2005, the foreign language department hosted trips abroad, allowing Wachusett students a different cultural experience for two weeks. Ms. Barry and Mrs. Weno led a voyage to Costa Rica for the Spanish scholars. The experience included day trips to a volcano, the rain forest, and living with a host family. On the other side of the world, French students explored the country of France with Mrs. Scarsella. From spending two nights in Paris, the City of Lights, to living in a family's home in Nimes, they perfected their speaking skills and knowledge of francophone culture.

How do you like Wachusett?

I think Wachusett is a nice school, people are open to having new friends and really social. My experience was great, it helped me grow in life, find different sides of me and make life-long friends I will never forget, there's more of life that you cannot even see with your eyes.

How are American schools compared to schools in Mexico?

In Mexico, there is no big difference I only found it a little more strict, but easier.

**Jennifer Montoliu**  
Spain

How do you like Wachusett?

It was great! I had a lot of fun here and I met very exciting people which I'll never forget.

How are American schools like schools in Spain?

My school is like 1/4 of this school. All the kids in my school here equals the senior school here. Also here you have a lot of great activities you can do afterschool and back at my school you just have classes.

**Yui Takahashi**  
Japan

How do you like Wachusett?

I like it. It's the biggest school I've ever seen! My teachers are so nice and thoughtful. And of course, I love my friends! All of you guys!

How are American schools compared to schools in Japan?

It's much easier. I mean it's hard for me to learn in English, but if I could speak English like Japanese, school work is much easier.

# Class of 2006 Elections

It's time to elect the new senior class representatives.

And the winners are...

As the class of 2006 prepared for their senior year, they had one very important job to do: elect class officers. After hearing each candidates' rousing speech, the student body voted. At the end of the day the tallies were in, proving who the class felt most worthy for their student government and Student Council.

1. Liz Braley won for Class President.
2. Deirdre Doyno was victorious as Vice President.
3. Jenny Pistrang became the new Class Secretary.
4. John Donahue upheld his reign as Treasurer.

# Junior Prom

The 2004 Junior Prom was held as a "Moonlight Sonata" at the Worcester Centrum on May 15th. Everyone came exceptionally dressed, and because it was a first prom for many, the Junior class came ready to dance the night away. # GRADUATION

## June 11, 2005

On graduation day, everyone is in a hurry to have their name called, walk across the stage, shake Dr. P's hand, and receive their diploma. First, the graduates gather together and take their very last pictures as a high school class, then they sit listening to their fellow classmates give their farewells, anticipating getting their diplomas.

Once everyone walks across the stage, every student takes the step of moving over their tassels as they celebrate together their accomplishments over four years as high school students.

## Speeches

Welcome Address

"We, the class of 2005 sit here, with mixed feelings of fear, sadness, and ambition...Every single one of you contributed different aspects that combined to make us the class that we are today...After being your class president for four years, I can honestly say that I have witnessed the greatness that this class has had to offer to each other, to the school, and to our community. Make sure to live the life you want; forge your own path. Remember that your future lies in your own hands and only you can decide the path that you choose to take." - Jesse De Patsy, Class President

"... in bidding farewell to Wachusett's graduates, I emphasize that to wish one 'farewell' is not a somber reflection on the past, but an anticipatory well-wishing that looks to the future... Graduates, at the commencement of our adulthood, I wish that a sense of purpose and direction may never leave you and may guide your future actions... All of us, at all times, have one distinct past but an infinite variety of possible fascinating futures. The uncertainty of the future is made exciting when approached with the purpose and passion that give life satisfaction. Do not forget that purpose; do not lose that passion!" - Dan Smaltz, Valedictorian

Valedictorian Speech

"Under Construction"

"Wachusett Regional High School is not for the weak at heart. You need bravery, you need strength, you need endurance. And you need a really good sense of humor... Our years at Wachusett have been filled with construction-related inconveniences, perhaps more than any other graduating class has endured so far, and we have had to adjust to all of them... Each of us here today has built the foundation through four years of work and experience, and now we are all preparing to raise the structure... We are constructing our lives, and this is only the beginning. Will it be a challenge? Yes. Will it be scary sometimes? Yes. Will we struggle to see past the piles of rusty equipment and scrap metal and envision the final result in all its grandeur? Absolutely. But we're from Wachusett. We know what we're in for." - Karen Wilfrid, Salutatorian

"Here, at Wachusett, we have not only learned about world history, psychology, Spanish, or calculus... we have learned a few things about ourselves. Who we truly are on the inside. Who we were, who we are, and who we want to be. We have learned to live each day to its fullest and stand up for what we believe in... This is only one of the hundred of mottos we have adopted at our school... Everyday for the rest of your life, you should walk tall knowing that you're a graduate of such a warm, welcoming, and supportive high school. I know that because of what you have done for me, I will never forget how amazing, intelligent, open-minded, and caring all you people are." - Drew King

"The Truth Behind the Doors"

**"WE SHOULD"**

"Dropping the Act"

"We are at a time in our life where we can drop whatever acts we may have been carrying for four years and finally be ourselves. Next year we have nothing to prove, except our ability to be ourselves... I hope that we can remember one thing: Graduation is important because we are moving on, but we need to be ourselves no matter where we go or who we become. We all may occasionally act a part as we adapt to new surroundings and places, but we must be able to shed ourselves of a role and be who we really are. All the world may be a stage, but the most interesting character you can ever play is yourself." - Patrice LaHair

# GRADUATION

## *The Grand Finale!*

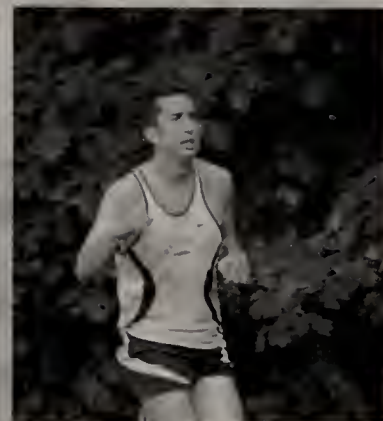

# COMPLETING THE PUZZLE

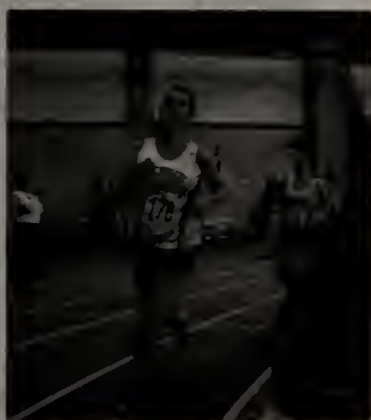

# Action Packed Pieces

*This year, like many other years, Wachusett soared over excellence and reached unbelievable. These action packed pieces included the football's superbowl win, the track teams unbeatable records, and the basketball team's battle for champs.*

*I must say athletes, a job well done. Feats like these could not be reached without becoming "BIGGER, FASTER, and STRONGER" with Coach J or the unforgettable Badlands always there for support. Not every team won, but each team reached success. Each team had a drive and determination that created pieces to their puzzle they will remember forever.*

## Wachusett Wins Super Bowl Again!

Football is one of the major attractions of Wachusett High School, and fans from the community have always been psyched to show their support at all the games. Captains Jesse Peterson and Patrick Murray led the team through a great season. This season was marked by some unforgettable games including defeating Gardner and beating Westboro in the frigid cold of the Snow Bowl, as well as winning Division 1A in the Super Bowl for the second year in a row.

The Super Bowl was an amazing event and the highlight for Wachusett football this year,

Wachusett football defeated Northampton in come-back fashion with a final score of 13-7 at Holyoke High School. In the last 4 minutes of the 4th quarter scored 2 times in dramatic fashion, while stopping Northampton on defense, to take the lead. The team ended the season with an outstanding record of 11-1.

All the players worked hard and stepped up to make this season a winning one, and the class of 2005 will always remember the great games that were played, especially their last in which they claimed the title of a champion.

## Boys Succeed In Strong Season

This season was one that all the players on the boys' Wachusett's soccer team will never forget. With the strong determination shown against all competition, the team showed their undeniable skills on the field. The team was not only a threat to opponents because of their individual talents, but their teamwork was a key component in their games.

The team had a highlight victory against St. John's at home and played deep into the playoffs before falling to State champion Algonquin. Captains Spencer Thorp and John Schnare were able to keep the team working together in order to have a fun season while working hard at the same time.

## "Mountaineer Pride"

Wachusett fans have always been provided with a stellar girls soccer team, and this year was no exception. The beginning of the 2004 school year brought back the excitement of the fall soccer season. In spite of the construction, spectators crowded the stands at those chilly night games to see their favorite returning star players, and even a couple of new faces.

Using the inspiration of their half-time cheer "Mountaineer Pride,"

the girls had a great season with a final record of 12 wins, 6 losses, and 2 ties.

The girls also earned the Academic Team Excellence Award and placed 2nd in the Mid-Wach A League. Captains Lindsay Dow and Mandy Washkevich provided the team with great leadership. A couple of the team's favorite season moments: the senior game and coming back to end the season strong.

## Girls Volleyball Spikes a Great Season

The girls' varsity volleyball team had yet another exciting season; a lot of memories were made and the team had a lot of fun. Even though captain Noelle German was on the sidelines for several games because of an injury, these girls played a great season.

A high point of the season was when the team won one game out of three against Milford, which Wachusett's volleyball team has never done before. Another exciting game was the Homecoming game because

the girls were so excited to play in front of the largest crowd all season.

The girls made it to the first round of districts versus Quincy and despite the fact that they lost the game, they shared a memorable moment with their coach in their last timeout of the season. Led by captains Ryan Hinson and Noelle German, the team finished the season off with a total record of 10 wins and 11 losses.

Boy's Cross Country had an exceptionally good season this year, topped with a District Championship. Everyone ran their hearts out to reach their goals and accomplish a winning season. Following the leadership of captain Tim Cunningham, who on his own had a standout season, the cross country team put together a slew of victories on thier venture towards the district title. Senior standout Jeff Lacey remembers the preparation and determination in the summer off-season, and weekend practices when the boys got together to drive themselves to better performance.

With a huge "step-up" performance by the team's seniors, including Ryan Little, the boys team conquered another District title, defeating league powerhouse and rival St. John's by a remarkable 1 point. Coach Wallace will remember this year for many more to come, for he accomplished his revenge on the "Johnnies" who beat his team a few years ago by another remarkable 1 point. The boys cross country team had a very successful year and finished strong as district champions.

The Wachusett Girls Cross Country team had another great season this fall. With a final record of 10-0, the team went on to win many championships and awards. Led by captains Jessamyn Cox, Rachel Rosenfeld, and Jakki Leger, the team won the league and district championships for the fourth year in a row. Along with their league and district titles, the girls ran their way to an undefeated dual-meet season.

Captain Rachel Rosenfeld said, "Our team is very close and we work together to support each other both on the course as well as the sidelines." The great team chemistry and the great talents of all the girls are what combined to give the girls such a great season and something for the Wachusett fans to look forward to next year. ## Golf Team Putts Their Way to Victory

The boys' golf team played an incredible season this year. With twenty wins, and zero losses and ties, they have much to be proud of. Under the leadership of captain Tyler Johnson, the team not only won the Central Massachusetts Districts, they tied fifth in the state! Looks like our boys have been spending their time at the driving range! With three of the team members having an average under 40.0, the team really has something to smile about!

The boys have shown perseverance, spirit, and portrayed a love of their sport. For the seniors, winning Districts was an incredibly memorable moment, as well as a great relief. The boys were under a lot of stress during that game, with the last man to take his turn coming up with the score necessary in order to win the game. The boys strived to be their best, and they proved they could be.

## Cheerleaders Raise the Standard

Cheerleading is a landmark of high school life, and Wachusett has some of the best. This year's fall football cheerleading season was a time for not only the football team to shine, but the cheerleaders as well. Captains Erynn McDavitt and Ally Feldman helped the girls to work hard and have fun while they did it. The community of football fans will always remember those spectacular half-time shows, but the cheerleaders have their own special memories.

A major goal of the sport is doing well in competitions and the girls brought back numerous placements, 4th place at Regionals and Leagues, and 7th place at States!

They also placed well in the top 2 spots at the Leicester Invitational cheerleading competition and the Hudson competition as well.

The one thing that all the cheerleaders of this season's squad will always remember is defeating their rival North Middlesex at the state competition. Overall, the girls did quite well throughout the season and had a blast, they continue to raise the bar for Wachusett's cheerleaders and will never forget the 2004 football season.

## Defending Champs Have Strong Season

The boys' basketball team had a great season this year. It included a number of ups and downs, with a number of thrilling victories as well. The expectations were high for this team and they came through and played right to the level of those expectations. With a senior-driven team, consisting of 6 seniors and 3 juniors, the boys squad had success right off the bat.

One of the captains of the team, Mike Sikonski, scored his 1,000th career point during the season as he continued as the focal point of the teams offense. The team took part in the 1st Annual Yuletide Classic at Assumption College this year and had great success making it to the championship before losing a very close game at the buzzer to rival St. John's.

One of the best games for the team this year was also against their rival St. John's at the Pioneers' gym. The team gave everything they have to come out victorious, when Bryan Riley hit a shot at the buzzer to win by 1 point in a game that will be remembered forever; both by those who played and those who watched the game.

The boys ended with a record of 17-5. They had a phenomenal year spending time at the number 1 spot on T&G top 10 teams in their CMASS division. They advanced into the playoffs before losing a heart-wrenching game once again at St. John's. The boys played together and had fun enjoying themselves during their very successful year.

## Mounts Value Playing Over Winning

This season the lady Mountaineers finished with a record of 5-17, with only one senior on the team, Kristen O'Malley. Even though their record was grim, it was an important season for the team. The girls worked hard to develop as a group and to improve overall.

They started the season off with an exciting upset against Brockton, one of the toughest teams from the year before. This was a great way to start the season and the girls will always remember it. Another highlight of the season was beating the Leominster girls team, one of the top ranked teams in the league. Their strong defense prevented the Blue Devils from taking control of the basketball game and

they ran their offenses well too. It was a very memorable game for the girls because it showed how well they clicked as a team. They out-hustled the Leominster team, and pulled away with a thrilling game and a fantastic victory.

Although their winning streak did not continue after the winning game versus Brockton, they fought hard to improve their skills and to prepare for next year. No other girls' team in the area worked as hard as the Wachusett team or had as good of a time doing it. This was a team with heart and soul!

## Boys Team Bonds Through Strong Season

This years' boys winter track team had a strong season both record and team wise. They competed well throughout all their meets and competitions. Unfortunately, however, the team also endured a large number of injuries this season. Although they were to come together to win most meets during the season, the nagging, long-term injuries came back to haunt them in the post-season.

Also, behind the intensity of each meet was the calm collectiveness that the team strived on. During stretching the team was always joking, talking, and enjoying each others'

presence. At all practices the team was always talking and having a good time.

The most important part of this years' successful team was their ability to keep focused at important times. The team members were always having a good time during practices and meet warm-ups. However, when it came down to business and it was time to work hard, the team was always focused and ready to compete. Thanks to their serious dedication, the boys' winter track team was able to succeed and they had a great year all around.

## Wachusett Continues to Dominate the Meets

For most people, winter means hibernating from the cold weather and gaining that inevitable holiday weight-- but not for the indoor track teams! The girls worked hard during their months inside, for staying in top physical shape between the fall and spring track seasons is a sport in itself.

Co-captains Colleen Brennan, Jessamyn Cox, and Vicki Weismann led the powerhouse of a team that dominated not only the League, but won the title of District Champs for the 12th straight year. With a final record of 4 wins and 1 loss, the girls proved that they could reach their goals and have fun at the same time.

Notable achievements included Kim Shooshan placing 6th in the 1000-meter, making it to nationals in New York; new school records for the 4x200 relay with Laura Socha, Kelly Coonan, Heather Cetto, and Casey Robertson; and the 4x800 relay with Jess Carpenter, Amy Bernier, Vicki Weismann, and Colleen Brennan.

Standing out among their teammates, Colleen Brennan received the Coach's Award, while Amy Bernier snagged the title of Most Valuable Player.

While the season's losses were more than they hoped for, they riled up a following from the Wachusett students, an impressive accomplishment for all those out-of-the-way game sites. Captain Frank Bova led a group of talented and hardworking players.

under the leadership of Coach Magnani as well, the team focused on their goal and grew together as a team, on and off the rink. Smooth skating and awesome attitudes helped the team to improve. While the team will lose many of their valuable senior players, the entire team recalls their ice hockey memories and hopes to strengthen the legacy of the team.

## Cheer the Way to Victory!

Adding variety and excitement to the already loud and spirited games of the boys basketball team was not the only accomplishment of the basketball cheerleading squad. The girls demonstrated their talents off the court as well, winning first place in the Regional Competition and even qualifying for states. Contests especially for cheerleading were really memorable for the girls,

as they allowed the team to truly show off their skills. Coexisting with the boisterous Badlands fans may seem like a difficult task, but the squad loves the support that they received from the crowd. These home games hounded an enormous crowd for the basketball team and its cheerleaders, but the girls inspired the group of guys at every game, dedicating themselves to travelling with the team.

While the players are skating around the rink, the hockey cheerleaders inspire them from the sidelines with their cheers. Known by their creative signs posted around the school, the girls liven up any already boisterous Wachusett game. Even with a small squad, co-captains Kayla Ursin and Courtney Brusco led the team through a successful season and were a part of keeping the hockey team going strong.

The hockey cheerleaders will always remember the funny times they had together. Lauren accidentally flying off the bleachers, hiding Emily's pom-poms - these stand out as some of the girls' most hilarious memories. Not only did the hockey cheerleaders bond off the rink, but they also had an awesome season supporting the boys hockey team during all their games.

## Every Swimmer Deserves a Good Stroke!

This years' swimming season was awesome! At first, the team was worried after losing many seniors who made up a good chunk of the team, but the new freshmen had no trouble pulling up the slack. The team was always pumped at all the meets with the enthusiasm of the captains, Krissy Trutor, Liz Braley, Ashley Chase and Sam Wilner. The team got themselves psyched up for League Championships

by creating t-shirts that said "Wachu swimming?" and "every swimmer deserves a good stroke!"

On the day of champs, the team wore colorful tights, crazy colors, and the t-shirts that they made. Their craziness paid off when they placed third at the League Championships. This was the teams' fifth year and it gets better and better every year. So, come join the fun and BYOB- bring your own bathing suit!

## Gymnastics Team Raises the Bar

This year, the Wachusett Gymnastics team did better than it ever has before. Previously, the Mountaineers could barely break 100 points. But this year, the girls started their first meet off with a score of 117. The highest score the girls ever recieved was a 125, which is a score that may have possibly won them a meet. The Wachusett Gymnastics team is most proud of this score because their main goal was to be able to have such a score and they reached it.

During the season, all the girls put in a lot of effort and time to make the team better, and reach its goal. Despite the fact that the team did not win any meets, they have clearly improved a tremendous amount since last year.

Looking back on the season, there were numerous highlights. For instance, a memorable moment was when Nicole Hook scored a 9.0 on her floor routine. Also, first year gymnasts on the team did excellent, with Kat Convery scoring roughly a 6.8. Captain Brianna McClure reached her goal of scoring a 7.0 on the floor during the season, making it her favorite gymnastics moment yet. After Brianna achieved this goal and was asked what she thought her team motto was, she replied with "Never give up."

## Softball Girls are League Champs!

From the first day of tryouts, Wachusett girls softball knew they had something special. Making it to the second round of districts last year and returning with a core group of starters, along with some talented freshmen, the team had high hopes. The girls continued to uphold the legacy of winning performances; in the first game of the season, left handed pitcher Erin Christensen delivered a no-hitter against Marlboro.

The girls had a great season under the leadership of four great seniors: Ashley Bulseco, a four year starter and senior captain; Maggie Elbag, a great hitter and starting right fielder, Sarah Bertin, starting first baseman, and Laura Bisbee starting left-fielder. With a final record of 17 wins and 3 losses, the team had a very strong season; they even became the first softball team in school history to win the title of League Champions.

## An Exciting Season for Volleyball

When the boys volleyball team of Spring 2005 is mentioned, two things come to mind: the great potential of the team and all the fun they had. The most memorable game was against Milford. Even though the boys lost overall, they won one of the three games and scored over 26 points in another loss; it was the first time in 6 years that Wachusett scored more than 22 points in a game against Milford. There were an impressive amount of records

set by players this season, most notably by Tyler Hauer, Jon Allain, and captain Matt Snyder. Coach Townsend says of the guys "I can honestly say that of the teams I've coached so far, this year's team had the most potential of any of them." With only two seniors graduating, Tyler Hauer and Patrick Graham, the future looks even brighter next season.

## Success Mounts

This year the Wachusett varsity Baseball team finished with a regular season record of 12-8. With one of the hardest schedules in central Massachusetts, the team fought hard against many formidable opponents. Wachusett beat Shrewsbury the last game of the season to win the MidWach A Title. Wachusett earned a 9 seed overall heading into the district tournament. In the first round of Districts, Wachusett beat Shepherd Hill 9-3. Unfortunately, they lost in the second round by a score of 6-3. Wachusett finished the season with a strong record of 13-9. Wachusett was led by six outstanding seniors this year. Three of them were deemed the title League

All-Star, Erik Cutler, Matt Orrico and Frank Bova. Frank Bova also got the honorary title of being a State All-Star. Pitchers Evan Ray and Erik Cutler were strong and consistent all season. Their efforts on the mound provided Wachusett with many opportunities to win. The team answered with an equally powerful offense led by senior captain Matt Orrico. Senior Mike Sikonski and Andrew Miskinis were also key factors in leading Wachusett's potent offense. Senior captain Frank Bova provided solid defense and offense all season. Senior Captains Matt Orrico and Frank Bova led the team brilliantly on and off the field, along with Jon Daskocil.

Playing the course at Holden Hills never became boring for these girls; they always had a positive attitude and worked through a tough season. Lugging those golf clubs around, the team's members proved that they loved to play, even through all the rainy days of this year's spring.

## Lacrosse Makes Major Improvement

When the boys lacrosse team looks back on their 2005 season, the game they will most remember is that against Shrewsbury during the regular season. The Wachusett team came back from a 4 goal deficit to end up beating Shrewsbury in their last game of the season, before they made it to districts. Other special accomplishments that took place during the season were the awards given out to the players. The lacrosse team's MVP was Chris Wesche and the Coach's Award went to Mike Duffey. As the team improved throughout the season, Jon Donahue

improved the most as a player. Not only did Wachusett's varsity boys lacrosse team come back in their last game against Shrewsbury, but they came back in total. Last year, they had won only 2 games the entire season. This year, the team went on to win 11 games and only lose 9. The team overcame a lot and did it better than it has in most previous years. Every member of the team is very proud of that and will think of that as the season's biggest success.

## Girls Lacrosse Continues to Grow

After establishing the team only 5 years ago, coaches Jo Sundin and Dave Kunar continue to improve girls' lacrosse. This season the team played more games, ending up with a final record of 7 wins and 11 losses. Captains Lindsay Sundin and Brianna Kenworthy led the girls through a strong season. The team had a lot of fun too, spending time

away from practice just hanging out together. One of their favorite moments from the season was playing "steal the bacon" in the mud. Even more impressive than the team's improvement was the great turnout for tryouts; the fact that a lot of underclassmen are embracing the sport ensures the girls' lacrosse team will have a lasting impression on Wachusett.

While the Wachusett community knows little about the high school tennis teams, these athletes proved that they're deserving of more of the spotlight. With a final record of 11 wins and 6 losses, the girls' team showed a lot of improvement from last year.

They made it to the third round of districts, with a lot of dedication and the leadership of captains Becca Eaton and Bergen Washburn.

When they weren't busy practicing and perfecting their perfect backswings, the girls bonded over scavenger hunts and cookouts, admitting that eating was one of their favorite pastimes as a team.

Preschool to High School and  
a whole lot in between

Preschool photo

We are overwhelmed with pride from the young lady you have become. There are somethings that happen in life that seem painful and unfair, but in reflection you realize that without overcoming those obstacles you would have never realized your potential.

Everything happens for a reason. Without these small tests, life would be like a smoothly paved road to nowhere; safe and comfortable but dull and pointless. Your successes and downfalls create who you are. If someone hurts you or breaks your heart, forgive them because they have helped you to learn about trust. Remember daughter: shoulders back, head held high. Realize that dreams really do come true.

Love, Mom, Dad, Brendan & Lucky

## From Boyhood to Manhood

As you are about to cross the bridge from boyhood to manhood, it will be  
YOUR choices alone that determine how long you stay on that bridge  
before completely crossing over into adulthood. Once across, you have so  
many roads to choose from. We have complete confidence that you will  
grow into the man that God wants you to become as long as you set goals  
and strive to achieve them with Him as you co-pilot. It has brought us  
much joy and pride watching you grow into the young man you have  
become. As difficult as it is to see your children graduate from high  
school, we are also very excited for what the future holds for you.

board. The school follows the Accent Program. The front and back  
endsheets are #282 Kelly Green. Silver foil is used for our lettering.  
The paper used throughout the book is 80 bound gloss, printed with  
standard black ink. Thirty-two pages were printed using the standard  
four color process. The font used as the major style is Times. Other  
assorted types of fonts were used at the discretion of the page editor.

The current events supplement, World Beat (produced by  
Jostens), has been sewn in at the end of the book after page 304.

Senior portraits were taken by Wayne Myers and his associates  
of Myers Studio, Sterling, MA, the designated yearbook  
photographer. Other professional photographers did some of the  
portraits. Athletics (both teams and candids), clubs, organizations,  
faculty and major school events were photographed at no charge to  
the yearbook by Myers Studio. The studio also generously provided  
the yearbook staff with digital CD's, developing and equipment at no  
extra charge. Additional athletic, event and candid photographs were  
taken by members of the yearbook staff as well as donated by various  
members of the Class of 2005, their parents and advisors. O'Connor  
School Portraits photographed the underclassmen for student ID's and  
made these photos available to the yearbook staff at no cost.

The approximate cost of printing the book is \$42,000. This  
figure includes publishing costs, freight charges, shipment of  
materials to North Carolina, color candid photography, expenses, and  
other supplies. The per copy cost to the public is \$65. Monies are  
raised through an assessment to the Senior Class per student, parent  
ads, patron/sponsor solicitation campaign, and the proceeds from soda  
machines in the gym corridor. These 304 pages are representative of  
the entire Wachusett student body and their community.

## Colophon

The Mountaineer is an annual publication by the Yearbook staff at  
Wachusett Regional High School, 1401 Main Street, Holden,  
Massachusetts 01520. The towns served by the high school are Holden,  
Paxton, Princeton, Rutland, and Sterling. The book was distributed to the  
Class of 2005 at a class social held in mid-August.

The book was printed in Winston-Salem, North Carolina at the  
Jostens Publishing Division. The cover was designed for our staff by  
Rick Brooks of the Creative Resources Department of Jostens.

Our cover is school-designed Truelife lithograph photograph mosaic.  
The litho-process has a special Ultra Matte lamination for protection and  
UV coating for artistic effects. The trim size is 8.5 X 11 and  
Smythe-sewn. It is wrapped around 120-point binder's

## The Mountaineers: Year 2

This year we chose to go to an online program, so in many ways we felt like rookies again. Thankfully, we had the support of many people again this year.

First and foremost we have to thank Wayne and Bev Myers of Myers Studios for their prompt turn-around with all the photos, from formals to candid. We encourage seniors to continue to use them in the future.

Pete Greer, we can't forget you. You saw us through the online program - it's a relief to know that you are always available to give suggestions or ideas or moral support. And to Rick Brooks: we love our cover [again].

Cathy Nicastro: thanks for handling our accounts and the orders for the PDA's. It is a pleasure to work with you.

And to all the WRHS staff members who have helped us along the way: Ed McTigue, Nancy Grenier, Della Ritland, Donna Laramee, Ginny Belcher, Amy Kathman and Donna Broadway, thanks for all the favors you do for us. Doug Miller, thanks for sharing the lab. And thanks to the many teachers who shared photos of their clubs/ organizations - it's the photos that make the yearbook what it is.

To our staff: Kayla and Kelly, thanks for your leadership and initiative. Lara and Brittany, good work on the senior section. It was in good hands. Courtney and Shay, thanks for being so independent and responsible. Kasey and Paige, thanks for staying with us to finish the student life section. You really came through in the end. Andrea and Nicole, you had to meet every deadline. Thanks for getting the job done. Jackie, Christina, and Ashley, thanks for your patience in the early months and for getting your pages done so fast in the end. Claire, Amanda and Cheri, thanks for the work on the underclassmen section. That's a big job. Deirdre, it was a relief knowing that you were doing the PDAs with such accuracy. Sarah Bertin: you did everything we asked and more! And Kerry, thanks for doing the writeups all year. We were lucky to have you. And, of course, we have to remember Corey, Sam, Ryan and Jeff for the occasional drop-ins, keyboard solos, whistling and, OK... laughs.

To the members of the Class of 2005 - enjoy the memories captured in this yearbook... and best of luck in the future!

### WE DID IT WACHUSETT!

As our final steps as high school students brought us across the stage, we completed our puzzle of adolescence; we will all begin another puzzle that will be the rest of our lives. Congratulations Seniors! No matter what your new puzzle is to become, we will all be joined together from our similar pieces that Wachusett has given each and every one of us. Good luck in whatever path you choose!

~ Kayla
